

Three directions

A · Bowl on the table

Recommended

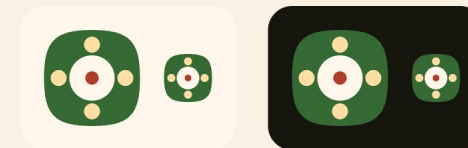

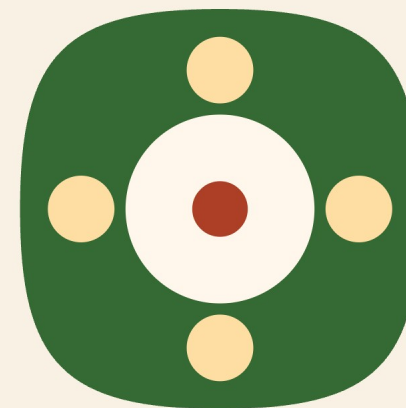

A steaming bowl on a family table: home cooking and the table the name is about, in one silhouette that still reads at 24px.

B · Handed-down card

A recipe index card with a sprig: recipes passed down. Warm, but reads like a notes app and loses its lines at small sizes.

C · Round table, top view

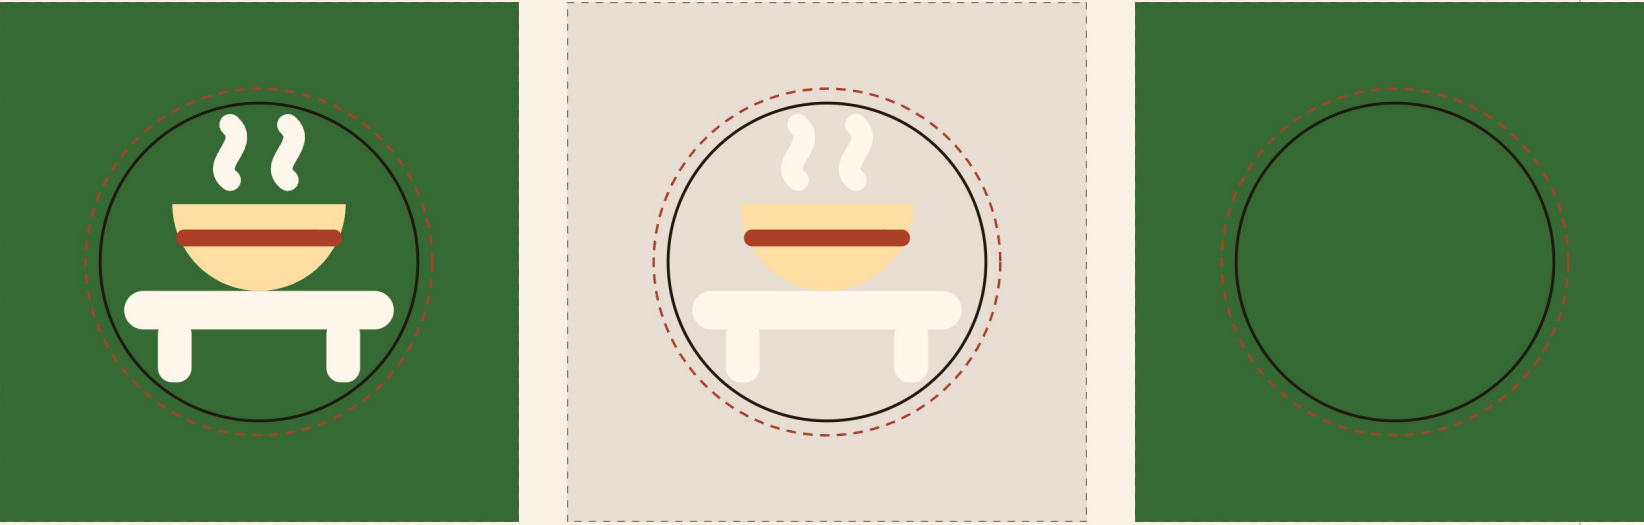

Four plates around a round table: the family gathered. Distinctive, but abstract — at 24px it reads as a clock or a flower.

Bowl on the table

Cream table and steam, a mustard bowl with a paprika pottery band, on Garden green. No text in the mark. Serbian name proposal: **Za stolom** (“At the table”) — short, warm, and the phrase a family uses when the meal is ready.
